Individual Contribution Summary — Phase 1

Project: ***GestureX*** *Real-Time Sign Language Detection and Translation System*

Team Contribution Table

The table below summarizes the primary contribution of each team member during Phase 1 of the project.

S.No.	Team Member	Primary Responsibility (Phase 1)	Contribution Details
1	**Shafna K N**	Project Proposal Preparation	Drafted and compiled the complete IEEE-format project proposal, including the problem statement, objectives, literature survey, methodology, system design, timeline, and references.
2	**Akshara M**	Project Branding / Logo Design	Designed the project logo and visual identity elements to represent the team and project during Phase 1.
3	**Karthik Prasad**	Brainstorming & Concept Development	Participated actively in team brainstorming sessions, contributing ideas toward defining the project scope, feature set, and overall problem approach.
4	**Archana Sudhakaran**	Brainstorming & Concept Development	Participated actively in team brainstorming sessions, contributing ideas toward defining the project scope, feature set, and overall problem approach.

Phase 1 Summary

Phase 1 focused on establishing the foundation of the project: defining the problem, researching existing approaches, and formalizing the proposed solution. The team collaboratively brainstormed the project concept, after which responsibilities were distributed to ensure timely completion of all Phase 1 deliverables.

- Shafna K N led the documentation effort, authoring the full project proposal in IEEE format, covering the problem statement, literature survey, proposed methodology, system design, implementation timeline, and feasibility analysis.
- Akshara M developed the project's visual identity by designing the team/project logo, to be used across the proposal, presentation, and future project materials.
- Karthik Prasad and Archana Sudhakaran contributed to the initial brainstorming discussions that shaped the project idea, problem framing, and proposed approach, providing input that was incorporated into the final proposal.

All team members were involved in the initial ideation discussions that led to the selection of the project topic. Task allocation for Phase 1 was agreed upon collectively, and each member's contribution supported the successful and timely submission of the Phase 1 deliverables.

Declaration

We, the undersigned team members, confirm that the contributions listed above accurately reflect each individual's role and effort during Phase 1 of this project.
